Tour Code: CQP-01

Located on the upper reaches of the Changjiang (Yangtze) River, Chongqing Municipality is the largest industrial and commercial center in the southwest China. With some 3000 years of history and a registered population of over 30 million, it is regarded as a "mountain city" because of its buildings on hillsides and mountains. The climate here is often cloudy and misty, so it is called the "fog city". Also, its hot climate in summer makes the city gain the name of "furnace city". All in all, Chongqing is the best place to start a boat excursion and tour the world-famous Three Gorges on the Changjiang River. It is also the home of the famous Chongqing hotpot.
