

The Peak

There's a reason why The Peak is one of the most popular attractions in Hong Kong: It is absolutely incredible! Looking down from The Peak you'll be amazed by the spectacular view of the surrounding city skyline, the world-famous Victoria Harbour and Kowloon, towering skyscrapers and peaceful green hillsides.

Getting there is an unforgettable trip. There's nothing in the world like the Peak Tram. Pulled by steel cables, the tram climbs 373 meters (about 1,200 feet). It's so steep that the buildings you pass look like they're leaning at a 45° angle! Whether you're going up or coming down, you'll love this trip.

And now this fabulous vista has been further enhanced by the 2006 revitalization of one of Hong Kong most striking landmarks, the Peak Tower. Even more than before, it's a destination in its own right.

The highly distinctive building now boasts a new 686m² Viewing Terrace presenting spectacular 360-degree panoramic views.

Once on The Peak, there are a number of locations providing magnificent views of the city below. For great continuous unfolding vistas, take the Peak Circle Walk or go directly to the Lugard Road Lookout for fabulous views over the harbor. There are more great vistas from the Lions View Point Pavilion and the viewing terrace at the Peak Galleria, as well as the Peak Tower Sky Terrace.
